

CURRICULUM VITAE

SHRIDEEP PALLICKARA

Department of Computer Science, Colorado State University
Home Page: <http://www.cs.colostate.edu/~shrideep/>

Cell: [812] 345 1442
Email: shrideep {at} cs.colostate.edu

1 Research Interests

My research interests are in the area of large-scale systems; specifically streaming and cloud computing.

2 Education

June'01	<i>Syracuse University</i> , Syracuse, New York. PhD , Computer Engineering.
Dec 98	<i>Syracuse University</i> , Syracuse, New York. Master Of Science , Computer Engineering
May 94	<i>Bombay University</i> , Bombay, India. Bachelor Of Engineering (Honors) , Electronics & Telecommunications.

3 Professional Experience

Aug 09 –	Assistant Professor	Department of Computer Science, Colorado State University
Oct 02 – Aug 09	Research Associate	Community Grids Lab, Indiana University.
Oct 01 – Oct 02	Post Doctoral Fellow	Community Grids Lab, Indiana University.
Jan 99 – Sep 99	Intern	IBM T J Watson Research Center, New York.
May 97 – Sep 97	Intern	IBM T J Watson Research Center, New York.
May 96 – Jun 01	Research Assistant	Northeast Parallel Architectures Center, Department Of Electrical Engineering and Computer Science, Syracuse University
Jan 96 – May 96	Teaching Assistant	Department Of Electrical Engineering and Computer Science, Syracuse University
Jun 94 – July 95	Software Analyst	Mahindra- British Telecom Plc, Bombay India.

4 Research Grants

My research has been funded through grants from funding agencies in the United States and the United Kingdom.

4.1 Funding from the United States

1. *Evaluating the Computational Soundness and Enabling the Coarse Grained Parallelization of the NAADSM Epidemiological Simulation Model*. Shrideep Pallickara (PI), Wim Böhm (co-PI) and Sanjay Rajopadhye (co-PI). \$86,952 8/2009-8/2010. From the USDA/ Animal and Plant Health Inspection Service (APHIS) through the Department of Homeland Security.

2. Collaborative Research: Development of Middleware/Software to allow Visualization and Analysis of Large and Complex 4-D Geoscience Data Sets. Gordon Erlebacher (PI, Florida State University), Shrideep Pallickara (PI, Indiana University), Dave Yeun (PI, University of Minnesota). National Science Foundation. NSF EAR-0446610, \$199,020 over 6/1/2005-5/31/2009.

3. Collaborative Research: High-Performance Techniques, Designs and Implementation of Software Infrastructure for Change Detection and Mining. Shrideep Pallickara: Co-PI, with Geoffrey Fox (PI) and Marlon Pierce (Co-PI) Northwestern University: Alok Choudhary (PI) with Aggelos Katsaggelos (Co-PI), Gokhan Memik (Co-PI), Seda O Memik (Co-PI) and Ying Wu (Co-PI). National Science Foundation. NSF IIS-0536947: \$368,841 over 9/15/2004-2009

4.2 Funding from the United Kingdom

1. FINS -- Support for Web Services based publish/subscribe notifications within Grid Applications.

PI: Geoffrey Fox, Co-PI: Shrideep Pallickara

Funding: 10/2004 -- 1/2006, total amount \$307, 247

Funding Source: Open Middleware Infrastructure Institute of the United Kingdom

2. FIRMS -- Support for Web Services based reliable messaging within Grid Applications.

PI: Geoffrey Fox, Co-PI: Shrideep Pallickara

Funding: 10/2004 -- 10/2005, total amount \$158,570

Funding Source: Open Middleware Infrastructure Institute of the United Kingdom

5 Teaching

Fall 2009 *CS670: Special Topics in Architecture/Systems {Distributed Systems}* Graduate Course

Spring 2010 *CS451: Operating Systems* Senior Undergraduate Course

Fall 2010 *CS555: Distributed Systems* Graduate Course

6 Projects

I am the architect and project lead of two major systems – Granules and NaradaBrokering. I have placed all systems software, produced as part of these projects, in the open-source domain.

6.1 Granules

Granules is a lightweight runtime for cloud computing. The runtime deploys applications on a cloud of computers and orchestrates their completion. Granules splits datasets that a monolithic application would operate on, and ensures that application instances managed by Granules operate on these smaller datasets to ensure concurrent processing and faster executions. It also includes support for the Map-Reduce programming model. A broad class of compute and data intensive applications can benefit from the capabilities available in Granules. Any application where the processing can be broken down into smaller chunks (either through splitting datasets or processing stages) can benefit from this runtime. Some of the application domains that Granules is currently being deployed in include Earthquake Science and Epidemiological Modeling.

6.2 NaradaBrokering

NaradaBrokering is an infrastructure for managing voluminous data streams being produced concurrently, at high rates, by a very large number of entities. The infrastructure allows entities to precisely specify constraints on portions of the streams that they are interested in consuming. By preferentially deploying links during

disseminations, the routing solution ensures that underlying network is optimally utilized. Research in NaradaBrokering has been funded through two grants from the National Science Foundation, two grants from the United Kingdom's Open Middleware Infrastructure Institute and an STTR grant from the Department of Energy. The total amount of funding for the NaradaBrokering project, from funding agencies in the US and UK was around \$1,250,000. NaradaBrokering provisions a rich set of easy-to-use capabilities. Since the provisioned capabilities-stack is mutable, scientists can instrument, permute and combine different capabilities to compose streaming systems. NaradaBrokering has been deployed in a diverse set of domains such as earthquake science, particle physics, ecological/environmental monitoring, geosciences, GIS systems and defense applications.

7 Publications

These are listed in roughly reverse chronological order. Listings with the symbol § signify publications where I am the primary author of the research article; in some cases, the authors are listed in alphabetical order. PDF versions of all papers are available for download at: <http://www.cs.colostate.edu/~shrideep/publications.html>
